Bo Ying Compound manufactured by Eu Yan Sang Hong Kong fully complies with Hong Kong safety standards

Eu Yan Sang Group reiterates that the Bo Ying Compound manufactured by Eu Yan Sang Hong Kong is in full compliance with Hong Kong safety standards. Since the issuance of the FDA warning on suspected lead levels in Bo Ying Compound (HK Version) on 25 September 2014, Eu Yan Sang has worked on verifying the source of the sample in question. As of today, that sample has yet to be authenticated.

Hong Kong Department of Health (HKDOH) has contacted the New York City Department of Health and Mental Hygiene (NYC DOH MH) and the FDA to inquire about the Bo Ying Compound case. HKDOH has responded to Oriental Daily News' enquiry dated 2 October 2014 as follows:

1. Eu Yan Sang Bo Ying Compound, manufactured in Hong Kong, is in full compliance with the safety standards stipulated by the Chinese Medicine Ordinance in Hong Kong.
2. HKDOH has randomly collected samples of Eu Yan Sang Hong Kong's Bo Ying Compound for lab test and analysis. The results showed that the lead content contained in Bo Ying Compound manufactured by Eu Yan Sang Hong Kong is lower than the total daily intake level (179 ug/day) stipulated by HKDOH, and is within the limit for food additives (2 ppm) stipulated by NYC DOH MH.

The Eu Yan Sang Group reassures consumers that its Bo Ying Compound manufactured in Hong Kong is in full compliance with Hong Kong's product safety and regulatory standards and are safe for consumption.
